

# Product Comparison

9" Capacity Wood Chippers

Specifications	Wallenstein	VALBY	
Make	Wallenstein	VALBY	
Model	BX92	LC900	Comments
Drive System	Direct Drive	Direct Drive w/Slip Clutch	
HP Req for Max Cap	70	60	Requires less hp for max capacity
HP Range	30-100	30-60	Lower hp range for smaller compact tractors
Chipper Capacity	9" Dia	9" Dia	
Rotor Size	30"	41"	
Number of Knives	4	2	Requires less hp to run. Not as many bites per revolution thus using less hp. Productivity is not lost because transmission allows disk to rotate twice as fast as competition
Knife Type	Hardened Tool Steel	Chromium Steel	Can be sharpened up to 40 times before needing replacement.
Twig Breaker	n/a	Standard	Creates a more uniform chip and decreases plugging
Rotor Weight	280 lbs	350 lbs	Heavier disk builds inertia and will not lug down smaller hp tractors while chipping. 20% heavier than competitor
Bearings	Ball	Spherical Roller	Uses industrial/commercial grade bearings rated for up to 2500 rpm
Feed System	Hydraulic	Hydraulic	
Mounting System	Three Point	Three Point	Allows for both Cat I and Cat II
Discharge Rotation	360°	360°	
Discharge Height	90"	118"	
Rated rpm	540-1000	540-1000	
Weight	1300 lbs	1700 lbs	24% heavier than competitor
Country of Origin	China	Europe	<a href="http://www.dftownsunny.com">www.dftownsunny.com</a>
MSRP Hydraulic Feed	\$8,865	\$9,999	
			Chipping knives are counter-sunk into chipping disk. All chipping force is absorbed by chipping disk not the mounting hardware
